15th ANNUAL SCIENTIFIC PROGRAM

February 27, 28, March 1, 2009

ORTHOMOLECULAR THERAPIES THAT WORK

Category 1 CME 16 hours

OUR FACULTY are among the most experienced orthomolecular healers on Earth, innovating with Megavitamins in the 70s, Antioxidants in the 80s, Rheology and Methylation in the 90s and now OHM has paved the way to better diagnosis and treatment in clinical medicine. Our success is an invitation to our colleagues in all areas of medical practice to join with us in the use of Nutrition, Detoxification and therapies that support the biochemistry and physiology of Healing and Adaptation.

That is why we ask *Not 'How sick are you? But 'How healthy can you be?'*

15th ANNUAL SCIENTIFIC PROGRAM

17 hours CME category 1

ORTHOMOLECULAR THERAPIES THAT WORK!

WHY YOU SHOULD ATTEND THIS CME PROGRAM: GENERAL OBJECTIVES:

1. Learn about new scientific support for megavitamins.
2. Learn about advances in treating pre-diabetes.
3. Learn about the integrative approach to improved therapy for Lyme Disease.
4. Learn about methylation, a factor in healing all diseases.
5. Learn about autologous stem cells for a new kind of healing.
6. Enjoy an overview of minerals as therapeutic factors.
7. Learn the science behind TCM (traditional Chinese Medicine)
8. Learn practical applications of enzyme transdermal therapy.
9. Learn the advantage of infrared therapy with thermographic documentation.

AND ABOVE ALL

9. Witness the paradigm shift: from pharmacology to physiology, represented by the Health Medicine Strategy of nutrition, detoxification, adaptive support, and the new insights into biochemical individuality.
10. Share your views on the practice of orthomolecular medicine and therapies that have worked in your practice.
11. We are seeking to identify the areas of agreement that define OHM as a model for primary care medical practice.
